Omar Boza

Webflow Developer | Figma-to-Production, CMS, Client-First, JavaScript

Managua, Nicaragua - +505 8399 2586 - omarboza@gmail.com - linkedin.com/in/omar-boza - github.com/Omazon - omazon.github.io/resume

PROFESSIONAL SUMMARY

Senior Web Developer with 9+ years in web delivery and approximately 3 years focused on production Webflow sites for U.S. clients (Jan 2024 - Aug 2026). Builds responsive, CMS-driven experiences from completed Figma designs through QA and launch using Client-First, custom JavaScript, integrations, technical SEO, and performance optimization. Experienced working independently on assigned builds and collaborating with designers, developers, project managers, SEO teams, and account managers across multiple concurrent projects. Fluent in English (EF SET C2) and Spanish.

TECHNICAL SKILLS

Performance & AI: Core Web Vitals, GTmetrix, PageSpeed Insights, Webflow MCP, AI-Assisted Audits, Bulk CMS Editing, Cursor, Claude Code

Languages: English (EF SET C2 - cert.efset.org/B6TnCM), Spanish (native)

PROFESSIONAL EXPERIENCE

Web Developer - Your Digital Resource, Florida, US (Remote) **Jan 2024 - Aug 2026**

- Used multiple Model Context Protocol (MCP) servers with AI tools to troubleshoot technical issues and support development workflows.
- Managed domains, DNS, and servers for client projects from initial setup through production.
- Delivered responsive Webflow sites from completed Figma designs through staging, QA, and production using Client-First while managing up to three concurrent projects.
- Architected Webflow CMS Collections, fields, references, and templates; regularly migrated WordPress blogs and content into maintainable Webflow structures.
- Built multilingual sites with Webflow Localization or translation widgets and created responsive behavior when only desktop designs were provided.
- Implemented advanced sliders, interactions, filters, forms, and custom JavaScript components when native Webflow functionality was insufficient.
- Installed HubSpot tracking, Google Analytics, Google Tag Manager, Mailchimp webhooks, and third-party scripts supplied for client marketing workflows.
- Administered external Webflow sites as part of the team, including plans, billing, transfers, cloning, domains, DNS, staging, publishing, and production deployments.
- Administered existing Shopify client sites, making platform and content edits.
- Pioneered Webflow MCP and AI-assisted workflows for bulk CMS updates, audits, and performance fixes; reduced typical GTmetrix Grade F-to-A optimization from about 90 minutes to 20-30 minutes.
- Created an open-source Client-First Agent Skill used by teammates to keep AI-generated Webflow classes and structures aligned with Client-First conventions.
- Worked independently on assigned builds and collaborated day-to-day with designers, developers, project managers, SEO specialists, and account managers; joined client calls when technical guidance was required.

Software Engineer - Nicasource, Florida, US (Remote) 2022 - 2024

- Delivered responsive websites and applications for international clients using JavaScript, Vue, React, WordPress, and reusable frontend components.
- Built configurable WordPress components for Sucuri with Advanced Custom Fields (ACF), including an options page for client-controlled text, colors, and variants; also contributed to frontend architecture and performance.

SEO Specialist / Web Developer - Top Floor Marketing, Managua, Nicaragua 2020 - 2022

- Built automation workflows that increased lead volume across client portfolio sites by 30%.
- Implemented technical SEO recommendations and optimized Core Web Vitals, performance, and on-page SEO across production sites.

Project Manager and Tech Lead - AIM Services, Managua, Nicaragua 2019 - 2020

- Led a team of 4 and recovered a year-delayed web and mobile application, returning both platforms to one source of truth and shipping to production in 3 months.

Web Developer - Target Ogilvy, Managua, Nicaragua 2017 - 2019

- Worked directly with designers to translate finished concepts into technically feasible, responsive websites aligned with the intended visual direction and project timelines.
- Built custom PHP and JavaScript websites and real-time systems for live events and campaigns.

SELECTED WEBFLOW PROJECTS

Custom MCP servers (personal projects): Built MCP servers from scratch to connect AI tools with application functionality.

Juno Counseling - CMS at scale - Built from Figma to production with Client-First and structured Webflow CMS content for a large healthcare blog and service library as part of Your Digital Resource. - junocounseling.com

Elevare Dental - Multilingual Webflow - Built from a completed Figma design through responsive implementation, multilingual support, QA, and production launch as part of Your Digital Resource. - elevare-dental.com

RapiStaffing - Custom JavaScript - Built in Webflow with a custom advanced slider and JavaScript components beyond native Webflow capabilities as part of Your Digital Resource. - rapistaffing.com

Client-First Skill for AI Agents - Created an open-source skill that encodes Finsweet Client-First conventions for AI-assisted Webflow development and team use. - github.com/Omazon/First-Client-Webflow

Additional live Webflow delivery: M&M Studios, Park Central Dental, Wesmark Dentistry, Lake Norman Dental, Rochester Hills DMD, Thomas Dental Group, and Greenville NC OMFS. All delivered as an employee of Your Digital Resource.
