Senior Web Developer | Tech Lead | Webflow, WordPress, React, Next.js | PHP, JavaScript, CSS | AI Automation

Managua, Nicaragua · +505 8399 2586 · omarboza@gmail.com · [linkedin.com/in/omar-boza](https://www.linkedin.com/in/omar-boza) · github.com/Oamazon · amazon.github.io/resume

PROFESSIONAL SUMMARY

Senior Web Developer and Technical Lead with extensive experience delivering high-performance websites and web applications for U.S. and international clients. Expertise in WordPress, Webflow, PHP, JavaScript, CSS, React, and Next.js, with a strong track record of solving complex technical challenges, improving performance, and leading projects from planning through production. Experienced in AI-assisted development and workflow automation. Fluent in English (EF SET C2) and Spanish; based in Managua, Nicaragua and available for remote work.

TECHNICAL SKILLS

- AI & Automation:** Cursor, Claude Code, Opencode, MCP, n8n, Prompt Engineering, Prompt Debugging, Custom AI Harnesses, Agentic Coding Workflows, AI Agents, GPT Integrations, RAG
- CMS:** Webflow, WordPress, Client-First, Elementor, DIVI, Bricks, Gutenberg
- PHP & Backend:** PHP, Laravel, WordPress theming/plugins, Node.js, Express, NestJS, REST APIs, SQL, PostgreSQL, MongoDB, Supabase, Insforge
- CSS & JavaScript:** CSS, JavaScript, Responsive Design, Tailwind CSS, Bootstrap CSS, TypeScript, React, Vue, Next.js, HTML
- Cloud & Tools:** AWS S3, Vercel, Webpack, Vite, Nginx, Apache, Proxmox, SEO, DNS, Core Web Vitals, GTmetrix, Figma
- Leadership:** Tech Lead, Project Management, Mentoring, Teaching
- Languages:** English (EF SET C2), Spanish (native)

PROFESSIONAL EXPERIENCE

- Web Developer — [Your Digital Resource](#), Florida, US (Remote)** Jan 2024 – Aug 2026
- Was the team's reference for WordPress and front-end: unusual WordPress behavior, multi-layer cache issues that hid shipped changes, and Webflow/CSS blockers got escalated to me; onboarded new developers.
 - Diagnosed and fixed multi-layer cache issues that made correct deployments look like failed changes, then optimized the layers so the problem stopped recurring.
 - Pioneered AI-assisted Webflow/WordPress workflows across dozens of landing pages, cutting repetitive editing work from days to a couple of hours.
 - Diagnosed client-site performance issues and built AI-driven optimization that moved sites from GTmetrix Grade F to A, cutting the process from 90 to 20 minutes.
 - Created an open-source Client-First Agent Skill that encodes Finsweet Client-First conventions so AI tools can generate Webflow components automatically instead of by hand.
- Software Engineer — [Nicasource](#), Florida, US (Remote)** 2022 – 2024
- Made the feasibility call that a client seat-reservation system could ship inside WordPress — modeling seats, availability, and bookings with custom post types and meta — instead of a separate application.
 - Owned web development delivery using React, Vue, and WordPress for international client requirements.
 - Contributed to frontend architecture, reusable component design, and performance optimization across concurrent projects.

SEO Specialist — [Top Floor Marketing](#), Managua, Nicaragua

2020 – 2022

- Built content automation combined with bot workflows, increasing lead volume across client portfolio sites by 30%.
- Built custom WordPress sites and optimized Core Web Vitals and on-page SEO for rankings.

Project Manager and Tech Lead — [AIM Services](#), Managua, Nicaragua

2019 – 2020

- As Project Manager and Tech Lead, recovered a year-delayed web + mobile application: web and mobile had drifted onto duplicated, out-of-sync logic; put both sides back on one source of truth and shipped to production in 3 months.
- Owned architecture and delivery for company projects, including a dual web/mobile application built with Ionic.

Web Developer — [Target Ogilvy](#), Managua, Nicaragua

2017 – 2019

- Introduced Laravel into projects previously built in plain PHP, expanding the feature set the agency could deliver to clients.
- Developed real-time PHP systems for special events and live campaigns, where failures were visible to audiences in the moment.

SELECTED PROJECTS

AIDA — Production dental clinic SaaS (patients, odontograms, appointments, payments); Next.js, TypeScript, PostgreSQL; HIPAA-conscious RBAC. · In production

Seat-level booking in WordPress — Feasibility call at Nicasource; shipped inside WordPress on one codebase.

Year-late web + mobile rescue — Tech Lead at AIM Services; production in 3 months after resyncing drifted stacks.

Multi-layer cache escalation — Standing WordPress/front-end reference at Your Digital Resource.

Client-First Skill for AI Agents — Open-source Agent Skill for Finsweet Client-First Webflow conventions. · github.com/Oamazon/First-Client-Webflow

AI Workflow Automations — n8n pipelines connecting Webflow CMS to GPT assistants and bot workflows for client content operations.

AI-Ready Resume Site — Portfolio optimized for AI/ATS parsing with JSON-LD, resume.json, and llms.txt. · amazon.github.io/resume

BYD El Salvador — WordPress site built from scratch with Elementor for automotive brand. · bydelsalvador.com

Somos Iberoamérica — Migrated custom PHP site to editable WordPress Gutenberg. · somosiberoamerica.org

Sucuri Blog — High-traffic cybersecurity blog with performance and reliability focus. · blog.sucuri.net

CERTIFICATIONS

EF SET English Certificate — C2 Proficient · Aug 29, 2026 · cert.efset.org/B6TnCM

EDUCATION

Computer Engineering — National Engineering University, Nicaragua

2010 – 2015
